## REPORT

OF THE

## SUPERINTENDING SCHOOL COMMITTEE

## FREMONT. N. H.

#### FOR THE YEAR ENDING MARCH, 1863.

The undersigned, Superintending School Committee of Fremont, would respectfully submit the following Report :-

DISTRICT, No. 1. Prudential Committee, Charles C. Brown.

SUMMER TERM. Teacher, Sarah A. Fullonton. Wages, including board, \$15.00. Duration of school 14 weeks. Whole number of scholars 27. Average number 19. Instances of tardiness 45. Dismissals 28. Visits by citizens and others 52.

Charles E. Purington and Susan E. Sanborn, were neither absent or tardy

during the term.

Winter Term.—Teacher, Sarah A. Fullonton. Wages, including board, \$16.00. Duration of school 14 weeks. Whole number of scholars 28. Average number 19. Instances of tardiness 35. Dismissals 28. Visits by citizens and others 24. Susan E. Sanborn was neither absent or tardy during the term.

DISTRICT, No. 2. Prudential Committee, John A. Tilton.

SUMMER TERM.—Teacher, Lucinda J. Currrier. Wages including board \$16.00. Duration of school 14 weeks. Whole number of scholars 40. Average number 27. Instances of tardiness 35. Dismissals 20. Visits by citizens and others 10. Albert Follett and Sarah Floyd, were neither absent or tardy during

WINTER TERM.—Teacher, Lucinda J. Currier. Wages including board,
—. Duration of school 14 weeks. Whole number of scholars 40. Average number 24. Other items not reported.

DISTRICT, No. 3. Prudential Committee, Gardner Sleeper.

SUMMER TERM.—Teacher, Rinda S. Thyng. Wages including board, \$15.-80. Duration of school 12 weeks. Whole number of scholars 41. Average number 30. Instances of tardiness 37. Dismissals 35. Visits by citizens and others, 31. Sydney F. Judd, Walter E. Judd, Lizzie M. Sleeper, Nettie Dear-born, and Ella M. Tuck, were neither absent or tardy during the term. We were sorry to be called upon to receive the services of one who had

but a few weeks experience, and consequently could not be expected to labor with that success, which is sure to attend the labors of one who has already-earned a good reputation as a teacher.

The District Agent employed the same teacher for the Winter Term, but contrary to the express wish of your Committee, and consequently she was dismissed, agreeably to the Statute which says, "And they (the Superintending School Committee,) shall dismiss any teacher, who is unfit to teach, notwithstanding a certificate has been given; and such teacher shall be entitled to compensation until such dismission, but no longer."

No teacher was provided for the school, which will account for the non-ap-

pearance of the report.

We appeal to you, fellow citizens, ought not such trifling with our schools to be promptly rebuked? Does not this state of things call loudly, for a reform? Can you afford to starve the intellects of your children, to gratify the cravings of a diseased appetite?

DISTRICT, No. 4. Prudential Committee, Jacob W. Smith.

SUMMER AND FALL TERM.—Teacher, Sarah E. Provere. Wages including board \$13.00. Duration of school 16 weeks. Whole number of scholars 14. Average number 12. Instances of tardiness 17. Dismissals 4. Visits by citizens and others 23. James N. Hoyt, Edwin F. Brown and W. Arthur Copp, were neither absent or tardy during the term.

#### REMARKS AND SUGGESTIONS.

Fellow Townsmen:

Your Committee in submitting the Annual Report, would respectfully call your attention to some remarks and suggestions bearing upon the educational

interests of the rising generation.

On reviewing the history of our country for the last two years, we cannot fail to be impressed, as never before, with the absolute necessity of universal We believe it must henceforth be regarded, not merely as a convenience, but as a condition of existence. It will be demanded by the law of self-preservation.

All rulers must be educated men.

But our king is the people! So then, the people must be educated.

But to do this we must take an interest in it as a body politic. One man officiating as a Committee cannot do it, neither can a dozen do it. A combination of talent, influence, and well directed effort is essential to success in every laudable enterprise. - And just in proportion as individual mind is detached for selfish purposes, the compact is weakened, and the body politic must suf-

The free school system is the most powerful instrument for educating the masses. And we believe that he who does the most to elevate the character of our schools, and for the education of our youth, does most to honor God,

and to bless mankind.

We cannot close this report without censuring our fellow citizens for a want of intellectual enterprise. The interest manifested in our schools is by no

means commensurate with their importance.

We think you have not acted the part of good financiers in appropriating your School money. We have not been provided with able, energetic, and efficient teachers; without which a school is productive of nearly, if not quite as much evil as good. While we hold no controversy with District Agents, -only with their vocation-we do wage interminable war upon ignorant and incompetent teachers. Poor teachers are not worth having at any price. The manufacture of teachers (so called,) at the present day, is very rapid. Hence the supply much exceeds the demand. Is it not true economy then, to secure the best teachers ?

The way to accomplish this is very simple. Let the Annual school meeting be called at an early day, then let every man turn out, and let it be an occa-

sion of special interest to every citizen.

Then elect the best man for Prudential Committee. Let him be a man of firmness and public spirit; a man who will be true to the highest interestsof the school; letting every other consideration yield to this; one who will engage the best teacher to be had within his knowledge, even if he or she should not happen to be one of his family connection. Instruct your Agents also to give no one any encouragement, until after the candidate has been before the examining committee, and can produce the qualifications for teaching, required by law. If your candidate fails to get a certificate, no harm will be done him,

and certainly not the district.

Instruct your Agent also to be present at the examination of his candidat Would it not be better to choose two or three, who together shall constitute

Prudential Committee ?

Let us, as intelligent men, with the interests of our common schools at hea consider these things, and seek to elevate the character of our schools.

A distinguished writer has said "There is no office higher than that of a teach

of youth, for there is nothing on earth so precious as the mind, soul and charter of the child. No office should be regarded with greater respect. The fi minds in a community should be encouraged to assume it."

But having secured the best teachers, our work is by no means done. These teachers must be sustained. Petty disagreements have spoiled many schools. However we may disagree in other things, disregarding all prejudices, let us unite in this great cause; as friends and co-workers.

Can we not afford to raise more money than the law requires for the support of good schools. Many towns in the State are doing so. And they find their interests promoted in so doing. Money raised for school purposes is only lent.—It pays a hundred fold. Remember, that "He that soweth bountifully, shall reap also bountifully, and he that soweth sparingly, shall reap also sparingly."

In closing this report, waiving many topics of interest, permit us to urge upon you to ignore all minor questions of a partisan nature, and merge them all in

The first party of the party of

the grander one of the education of our youth.

D. B. FITTS, S. S. Com. of Fremont. February 21, 1863.
